I. Call to Order and General Business

Chair Teresa Jacobs called the meeting to order at 10:09 a.m. Ruth Little called the roll and announced that a quorum was present.

II. Consent Agenda

A MOTION to approve the Consent Agenda was made by Mr. Mercer and seconded by Vice Mayor Martin. The MOTION to approve the Consent Agenda was UNANIMOUSLY PASSED.

III. Annual Financial Report – *Mr. Dan O'Keefe of Moore Stephens Lovelace, PA*

Mr. O'Keefe presented the annual financial report audit results and informed the council about generally accepted auditing standards that have recently expanded. He stated that the financial position of the agency looks good and there were no violations of compliance, but an issue was found regarding segregation of duties due to the Council's small staff size. The issue has been corrected with a new procedure for preparing deposit slips. Mr. McLouth made a MOTION to accept the audit report for informational purposes. Mayor Land seconded the MOTION and it was PASSED UNANIMOUSLY.

IV. SRPP Task Force Update– *Mr. Malcolm McLouth*

Mr. McLouth reported on recent and upcoming activities of the Strategic Regional Policy Plan Task Force. The Natural Resources sounding board will hold their first meeting on July 21 to discuss the NRORS map. Looking ahead, the Transportation chapter will require working closely with the MPOs, and the Affordable Housing chapter will present unique problems because of controversy surrounding the state-approved housing methodology. The remaining chapters will be routine compared with the challenges of the Natural Resources chapter.

A contract has been drafted with *myregion.org* to secure assistance in increasing public and private involvement in the SRPP process. Mr. McLouth asked for approval of the contract, not to exceed $15,000. His Motion was seconded by Mr. Mercer. After a brief discussion, the MOTION to approve the contract was PASSED UNANIMOUSLY.

V. Chair's Report – *Chair, Commissioner Teresa Jacobs*

Commissioner Jacobs informed the Council that the second Water Summit planned with the Northeast Florida Regional Council (NEFRC) had been postponed because of the Century Commission's state-wide water summit on September 25-26, 2008. She stressed that it is this Council's wish to complement the efforts of the Century Commission. Commissioner Jacobs promised to keep the Council informed on plans to schedule a fall meeting with the NEFRC and perhaps coordinate with the Century Commission's September meeting.

VI. Executive Director's Report – *Phil Laurien*

Budget and Dues FY 2009. Mr. Laurien presented a spreadsheet comparing Florida's 11 regional planning councils and their staff sizes, budgets, counties and populations served, member assessments, etc. He reminded the Council that last year's assessment reduction from 23¢ to 21¢ was a one-year consideration; absent specific action by the Council, the

dues multiplier will automatically return to 23¢ per capita for FY2009. Mr. Laurien stated that the ECFRPC has one of the smallest staff sizes in the state, yet we serve the second most populous region covering six counties and 68 cities. A lengthy discussion of the Council's assessment rate and proposed budget followed. Both of these matters will be addressed again in the August Council meeting.

Office Space Search. Mr. Laurien reminded the Council that the current offices are scheduled to be razed for I-4 interchange improvements. He reported on a building under consideration in Altamonte Springs. Renovations and a possible need to add fire separation between floors are being researched.

Florida Greenways and Trails Meeting. Mr. Laurien showed a powerpoint presentation from the June meeting of the Florida Greenways and Trails, the entity that reviews Florida Forever funds before they are expended. The 2008 map includes corridors for paddling, walk/bike paths, off road bicycling, and hiking trails. Mr. Laurien emphasized that these are potential corridors. Because the Florida Forever program has been funded again, they are looking for linkages, willing sellers, and opportunities, and will be using the CLIP to help make the best decisions. The ECFRPC staff will have an opportunity to comment on the corridors before FGTC approval.

VII. Announcements /Comments

Tara McCue informed the Council about a proposed beach erosion study at Satellite Beach in Brevard County. The study proposes to inject a chemical into the sand. Staff comments have been submitted requesting investigation into the effect on turtle nesting and hatching. Commissioner Nelson added that the study is being funded by Sand Rx, a private company, and that it is not a project of Brevard County.

Commissioner Jacobs provided an opportunity for Council members and members of the public to bring up events, issues or other items of interest. Vice Mayor Martin announcement of the death of former ECFRPC representative Bill Harvey.

VIII. Adjournment

There being no further business before the Council, the meeting was adjourned at 11:30.

Prospective New Work (Non Contract)
CFGIS conference; GIS upgrades

Highlights:

1. **Staffing**. We need to add additional (even if temporary) staff in FY 2009 to handle the "tremendous surge" in members demand for "hard" technical planning services to supplement their reduced staff.
   Examples:
   - OOCEA Economic Impact Study of the Wekiva Parkway
   - Orange County Sheriff UASI Anti Terrorism Grant Administration
   - FDOT and MPO GIS modeling and social economic modeling for their Long Range Transportation Plans, which must be complete in 2010.
   - FDOT GIS support for land use changes to input their traffic demand models.
   - Seminole County GIS analysis for the 17-92 CRA redevelopment corridor.
   - Cape Canaveral GIS mapping, visioning, and economic development assistance.
   - Prospective Economic Impact studies for the Lynx System, the Central Florida commuter Rail, and the Central Florida Zoo.
   - Model conservation development codes for Volusia County and the Century Commission.

   We propose to hire an experienced planner to replace Kimberly Loewen who left for Chicago in July. We also need to hire two contract entry level planners (no benefits) for a period of one year to assist in GIS and the many planning jobs, most notably the SRPP update. Also intend to keep two part time interns to assist. Contracts can support most of the staff cost, but we will need some additional support from general revenues.

2. **DCA financial support drastically cut.** Our FY 2009 contract has a significant work load increase, due in part to the mandated SRPP update. At the same time, the legislature cut us from $421,760 to $276,191, and the

Governor announced another 4% reduction, so our DCA income will be about $265,000. More work, 40 % less money.

3. **Leveraging dues:** We have committed contracts that leverage our dues. Dues make up only 29% of our revenues; contracts provide 71% of our funding. We are increasing our contracts because our members see value in using us for "niche" specialized planning services like GIS and Economic Impact modeling.

4. **Saving money-** eliminating Director's car allowance saves $6,000. Limiting staff travel and conferences generally to in state.

5. **Office space**- Our building is scheduled to be demolished in 2010, so we will have to move. A commercial real estate analysis shows advantage to buy our office space and stop renting, but only if we can find the right location and price. For this next year we still budget $120,000 for rent while we keep looking for options. If we buy office space using reserves we will give credit to our members, which will reduce their costs of operation.

6. **Staff raises**- We budgeted a maximum 4% merit (and you have to deserve it) raise for staff, as approved by Council in July.

7. **Reserves**- Approximately $2,000,000. $1,600,000 is dedicated to a capital reserve fund for office purchase, but this can be redirected as council sees fit.

8. **Expenditures**- $2,436,406 as proposed

9. **Revenues from contracts and dues-** $2,295,615 committed, not including prospective contracts.

10. **Needed from Reserves:** $140,791

11. **Other issues:** If the counties wish to reduce their dues this year because of property tax rollbacks and reduced revenues, they can use some of the reserves to do so. We are already suffering a $156,000 cut from DCA, but the reserves belong to the council. If they wish to use some of them to pay for the work program and reduce dues, they can do it.

We are busy working for you, keeping your dues the same as they have been for over 10 years, and helping you reshape our growth to the Regional Vision for 2050.

Thank you for your continued support!

RE: Agency Report, Levy Nuclear Power Plant Transmission Line Site Certification Application

Dear Ms. Seiler,

The East Central Florida Regional Planning Council has completed the Agency Report for the Levy Nuclear Power Plant Transmission Line Site Certification pursuant to 62-17.590, F.A.C. The ECFRPC reviewed the information concerning the Sumter Line corridor into Lake County and Leesburg. This is a 500 kV transmission line corridor connecting the Levy Nuclear Power Plant and the proposed Central Florida South Substation in Sumter or Lake County.

The Council staff's concerns regard the Development of Regional Impact (DRI) Secret Promise along the southern boundary of the corridor in Lake County. According to Map H of Secret Promise DRI, "Retail and Service" is planned along the southern boundary of CR 470. Progress Energy should work closely with the Secret Promise DRI to ensure the aesthetics of the transmission line and the ROW are consistent with the development occurring south of CR 470.

The proposed transmission line corridor also crosses some areas shown to be high in biodiversity, according to the ECFRPC Natural Areas of Regional Significance datasets. Council recommends that on-site verification of the actual extent of such natural resources be conducted as part of the corridor selection.

Pursuant to ECFRPC Strategic Regional Policy Plan *Policy 4.31 Planning and development approval shall avoid adverse impacts to listed species. Where suitable habitat on a project site is used by a listed species, a site plan and a management plan to minimize harm to the species and to maintain sufficient habitat to support a viable population of the species on-site should be required as a condition of development approval* and *Policy 4.32 All levels of government shall protect critical habitat for listed species,* appropriate avoidance or mitigation should be part of the corridor plan.

Re: Osceola County School Board Notification of a Proposed Change
Our File: 62-018

Dear Mr. Laurien:

This firm is general counsel to the School Board of Osceola County, Florida. Whidden and Associates is filing a Notification of a Proposed Change to the Osceola Corporate Center DRI on behalf of the School Board. The objective of the NOPC is to remove 4.6 acres from the DRI boundary located within Parcel 17, Tupperware World Headquarters and Campus, adjacent to the Osceola School for the Arts (out parcel), which is owned by the School Board. Map H will be revised accordingly and a new legal description of the revised DRI boundary adjusting the acreage from 922.49 acres to 917.89 acres will be provided. No other modifications are proposed by this request.

Based upon the foregoing, the School Board hereby requests that the NOPC application fee be waived.

Thank you for your attention to this matter. Please contact me with related questions and concerns.

Sincerely,

Suzanne D'Agresta

Subject: ***Notice of Availability – Addendum to the Finding of No Significant Impact***
Central Florida Commuter Rail Transit (CFCRT) Project
Financial Project ID: 412994-2-22-01
Volusia, Seminole, Orange and Osceola Counties, Florida

Dear : Phil Laurien,

Consistent with 23 CFR 771 and in compliance with the requirements of the National Environmental Policy Act (NEPA) of 1969, we are providing notice to your office of the Federal Transit Administration's (FTA) approval of the *Addendum to the Finding of No Significant Impact* (FONSI) for the Central Florida Commuter Rail Transit (CFCRT) project.

Based on the findings of the Supplemental Environmental Assessment approved on May 8, 2008, and the original FONSI approved on April 27, 2007, FTA has determined that the construction of the CFCRT project will have no significant adverse impact on the quality of the human environment. Therefore, the *Addendum to the FONSI* is considered appropriate and is adopted.

A copy of the signed *Addendum to the FONSI,* as well as the Supplemental Environmental Assessment, and other supporting technical documents are available for viewing at www.cfrail.com.

Your office should continue to circulate this notice of availability to maximize agency awareness. Should you have any questions, please do not hesitate to contact Tawny Olore at (407) 482-7879 or Sandra Gutierrez at (407) 482-7883.

Sincerely,
